Help people who are in need and don't have insurance by offering them dental care. Currently focusing in Canyon County, however would like to help others build similar programs in other areas. The program is easily transferable to other communities. Once an individual shows they don't have insurance, they conduct four hours of community service for one of the provided options. The individual is then screened for priority and referred to a service provider. This service provider helps the individual pay for the dental work. 21 dentists are part of Serve for Health.
